**Author:** Wiener and Gabriel  
**Version:** January 20, 2025 As amended  
**Urgency:** No **Fiscal:** Yes

**Subject:** Budget Act of 2024: Wildfire Response and Recovery.

**Summary:** This bill is a Budget Bill Junior associated with the Budget Act of 2024. This bill makes substantive changes to the Budget Act.

**Proposed Law:** This bill makes changes to the Budget Act of 2024. Specifically, this bill:

- 1) Appropriates up to \$1.5 billion in one-time General Fund, or other available funds, for augmentations to departments and agencies, subject to Department of Finance approval, for use in accordance with allowable uses of the Disaster Response-Emergency Operations Account in areas of the state affected by wildfire states of emergency that were declared by the Governor in January 2025. Funds shall be available for encumbrance until the state of emergency declaration is terminated, or on a date determined by the Department of Finance.
  - a. Allowable uses include, but are not limited to, emergency protective measures, evacuations, sheltering for survivors, household hazardous waste removal, assessment and remediation of post-fire hazards such as flash flooding and debris flows, traffic control, air quality and water and other environmental testing, and other actions to protect health, protect the safety of persons or property, and expedite recovery.
  - b. Augmentations for the first \$1 billion of this amount shall be made immediately with the remainder available no sooner than three days following the transmittal of the approval to the chairperson of the Joint Legislative Budget Committee or an earlier date as determined by the chairperson of the joint committee, or the chairperson's designee.

**Fiscal Effect:** This bill amends the Budget Act of 2024, and results in increased expenditures of up to \$1.5 billion, which may be fully or partially reimbursed by the federal government.

**Support:** None on file.

**Opposed:** None on file.

**Comments:** The January 2025 wildfires in the Los Angeles area have destroyed over 12,000 structures and at the time of this analysis, are still not fully contained. A disaster

has been declared in response, with the damage expected to be extensive. This bill, in concert with (ABX1 5/SBX1 3), amend the 2024 Budget plan to provide \$2.5 billion of authority for initial emergency response and recovery expenditures made by the state for this disaster. Historically, these expenditures have been reimbursed by the federal government, private insurance, and other sources.

It is expected that the Legislature will have to revisit disaster funding again before the 2024-25 fiscal year concludes and also incorporate disaster funding as a major component of the 2025-26 budget plan. To facilitate this future discussion both bills also include expenditure reporting requirements to inform future actions needed to respond to the disaster and facilitate the recovery.
