1. California Employment Development Department, California Projections of Employment 2016-2026. Total projected job openings are the sum of new jobs, exits, and transfers.

2. Occupational Employment Statistics Wage Survey, updated to 1st Quarter 2019.

3. The data from The Conference Board Help Wanted OnLine™ data series reflects California occupations with the highest number of online job advertisements in the 60-day period ending February 08, 2020.

[California Employment Projections 2016-2026](http://www.Labormarketinfo.edd.ca.gov) (www.Labormarketinfo.edd.ca.gov)

The California Employment Projections estimate the changes in industry and occupational employment over time resulting from industry growth, technological change, and other factors. The projections are available at the Statewide, metropolitan statistical area (MSA), and metropolitan division (MD) levels. The projections include information on the total number of job openings, median hourly and annual wages, and education/training levels.
