<b>Issue #</b>	<b>Proposal Name</b>	<b>Request</b>	<b>Comments</b>	<b>LAO Notes</b>	<b>Staff Recommendation</b>
1.	Adult Institution and Parolee Population Adjustments	Due to the changes in population, the Administration requests corresponding budget bill changes that are both ongoing and one-time. Overall, this reflects a net increase of \$106,159,000 and a net increase of 161.6 positions, which is comprised of an increase of \$103,570,000 General Fund and an increase of \$2,589,000 Inmate Welfare Fund.	Heard on 5/20	Based on our discussions with the administration, the inmate population projections do not take into account the time inmates have been serving on their prison sentences while in county jail awaiting transfer to state prison. As such, we find that the administration's projections and requested funding are likely significantly overestimated. However, the precise amount by which the projections are overestimated is unclear at this time. Accordingly, we recommend approving the proposed funding but adopting budget bill language specifying that the department shall revert to the General Fund any funding it received associated with inmates it did not serve in 2021-22. This will ensure the department does not use funds budgeted for the inmate population for other purposes.	Adopt LAO Recommendation
2.	Division of Juvenile Justice Population Adjustment	It is requested that Item 5225-001-0001 be increased by \$261,000 and 2.9 positions ongoing, reimbursements be decreased by \$232,000 ongoing, and Item 5225-011-0001 be	Heard on 5/20	No comments on this adjustment	Approve as budgeted

Closure of Deuel Vocational Institute (DVI) BCP and Trailer Bill Language	The May Revision includes a reduction of \$4.5 million and 32.7 positions General Fund in 2020-21, \$5.4 million and 37.1 positions in 2021-22, and an increase of \$350,000 and 0.9 positions in 2022-23 and ongoing, and statutory changes to reflect the closure of Deuel Vocational Institution. 5.	Correctional Staff Training and Job Shadowing	\$19.9 million General Fund and 59 positions in 2021-22, \$16.2 million General Fund in 2022-23, \$23.2 million General Fund in 2023-24 \$14.7 million General Fund in 2024-25 and ongoing	To improve departmental training of institution-based custody staff. The budget also includes trailer bill language containing statutory changes to implement the proposal.  Heard on 2/4	Approve CPOST funding but require report on training, approve new facility for hands-on training, approve fewer resources than proposed for new officer job shadowing program, require CDCR to adjust officer training funding annually	Per LAO recommendation, reject 16 of the 33 proposed prison based sergeant positions and the associated funding (estimated at \$2.7 million), reduce the funding for new officer pay by \$1.4 million to accurately reflect the new number of correctional officers CDCR requires in 2021-22, and adopt placeholder trailer bill language to adjust the funding for new officer training annually. Approve the remaining resources and positions.
6. The QMS California Correctional Health Care Services comprises two major interrelated programs: Quality Management and Patient Safety.</p> <p>Heard on 2/4</p>	<p>The LAO notes an error regarding the number of positions requested beginning in 2022-23 and ongoing because the proposal does not take into account two planned prison closures. As such, there should be a reduction in two health program managers and two health program specialist positions in 2022-23 and ongoing, resulting in reduced costs of about \$500,000 General Fund annually.</p>	<p>Adopt LAO Recommendation</p>

For example, a more cost-effective approach to improving rehabilitation could be to ensure all inmates have access to evidence-based rehabilitation programs that meet their needs. Before approving this proposal, we recommend that the Legislature require CDCR to report on whether it has sufficient resources to provide all inmates with access to evidence-based rehabilitation programs. As CDCR fills these positions, the need to provide funding for registry services should decline.
